Personal Projects

LIBRARY MANAGEMENT SYSTEM | *HTML, CSS, JAVACSRIPT* **January 2023**
PROJECT LINK ❯

- Resource Management: Manages resources like books, journals, and multimedia, ensuring easy cataloging and tracking.
- Inventory Control: Tracks inventory to know available and borrowed items in real-time.
- Book Inventory Management: Tracks and manages details of all books, including titles, authors, categories, and availability status.
- Member Management: Maintains records of all library members, including their membership details, borrowing history, and contact information.
- Lending and Returns: Allows users to borrow and return books efficiently, recording due dates and issuing reminders for overdue books.
- Catalog Search: Provides a search feature to quickly locate books by title, author, genre, or ISBN.

eCOMMERCE APP WEBSITE | *HTML, CSS,JAVASCRIPT* **November 2024**
PROJECT LINK ❯

- Key Pages: Homepage, product listings, product details, cart, and checkout.
- User Experience: Simple navigation, attractive design, and responsive layout
- Product Features: Images, descriptions, reviews, and pricing details.
- Shopping Cart and Wishlist: Enables users to add products to their cart for immediate purchase or to a wishlist for future reference.
- Product Showcase: Displays a wide range of products with detailed information, including images, descriptions, prices, and specifications, to help users make informed purchase decisions.
- Reviews and Ratings: Allows users to view and leave product reviews and ratings, which build trust and assist others in making decisions.

Technical Skills

Languages: Python, Java, C,C++, HTML,CSS, JavaScript, SQL,Php,Nodejs,
Developer Tools: VS Code, Intellij Idea, Android Studio
Technologies/Frameworks: Linux, GitHub,Adroid Development
Soft Skills:Creativity,Adaptability to detail, Problem Solving
CourseWork:Data Structure And Algorithm,Objects Oriented And Programming,DataBase Management System
Area Of Interest:Competitive Programming,Web development

Achievements

Solved over 250 data structures and algorithms questions.
